

Join Your Fellow Vets in Taking Back Your Future

“Our service men and women deserve exposure to high-quality programs that promote true health and healing. I consider WIN a comprehensive, powerful approach to not only heal pain and illness, but also to foster optimal physical and psychological wellness.”

~ Breon Michel, MAPP, Former Primary Instructor of the Master Resiliency Training (now CSF2)

Real solutions for real problems.

WIN-V (Wellbeing is Natural for Veterans) is a system that brings veterans together to heal, integrate, reconnect to life and ultimately discover a plan for the future with the confidence to execute it.

Your participation helps other Vets too.

Your tour is over, but your life is just beginning. Not leaving a man behind now includes you. The toughest missions are the ones where there is unknown obstacles and risks, and so many don't move forward. But you are a warrior, both inside and out, and WIN-V provides you the opportunity to rediscover who you are with the help of your fellow veterans.

The science behind the WIN-V program is staggering, proving time and again that the tools being taught here are a key in finding balance and stability in life. Some may call them “soft skills,” but the science knows they are indispensable on the journey to recovering from major trauma.

Wellbeing is Natural™

WHY WELL-BEING? Well-being is generally recognized as a vital and multi-dimensional component of health in both civilian and military contexts. “well-being has been identified as a critical aspect of military readiness” by the recent United States Department of Defense Suicide Prevention Task Force and the current Principal Deputy Under Secretary of Defense for Personnel and Readiness
